BOOK *of the* MONTH

The Falconer

Author: Christopher Splendorio

Publisher: AWSNA Publications

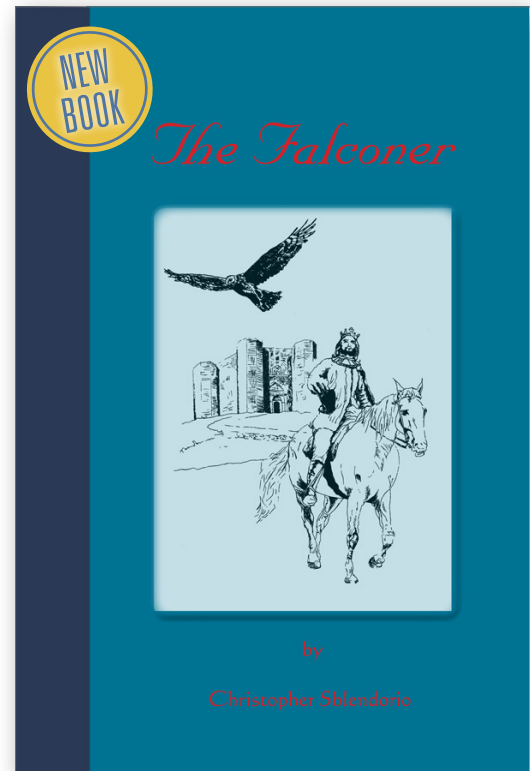

For Children Ages 11-15 years

Christopher Splendorio, master Waldorf teacher, has committed to a compelling story a characteristic biography from Medieval Italy. Just as in the classroom where a teacher finds a characteristic biography of one who lived resplendent in the colors, traditions, and aspirations of his or her time, the story of "The Falconer," tells the tale of Italy and not simply of a man. Heartwarm, detailed, straightforward and filled with imagination, this is a lively read for all readers from age eleven right up to adults!
